D. C. H. S. NOTES

The Y. W. C. A. and Y. M. C. A. held a joint meeting last Thursday as a farewell to the seniors. There was a large attendance. The seniors had charge of the meeting which proved to be very successful this year. The Y. W. C. A. has had the largest enrollment in the history of the school.

This year has been perhaps the most successful year for the wood working department in the history of the school. A large number of students have been taking manual training this year and they have put their best skill into their work with the result that a large number of pieces of furniture have been turned out of the wood working department. This division of the school has made such pieces of furniture as teacher's desks, book cases, cabinets and lockers. In fact, every piece of furniture that has been needed by the various departments of the school has been made by the manual training class, thereby saving a large sum of money for the cost of this furniture at retail would be rather a large sum.

This department is also building a large greenhouse. Practically all of the outside work is now completed and the building will be ready for use by the opening of school in September.

George Roggendorff of Carlton and W. H. Broughton are recent purchasers of Kugler's Low Down spreader. wt18d2t

RECORD LUMBER SHIPMENT OF 38 CARS THROUGH HERE

An extra train passed through Abilene Tuesday afternoon over the Union Pacific, with one of the largest single shipments of lumber which has ever been handled in this country. There were 38 cars in the train, all loaded with yellow pine lumber for western Kansas.

Lumber dealers say that the average carload of lumber will contain about 20,000 feet. Accordingly, there must have been approximately 760,000 feet, or more than three-

quarters of a million, in the shipment.

The lumber was being shipped from the Roberts Lumber & Grain company at Freeport, La., to Weber & Co., at Salina. It will be distributed from Salina to the various yards of Weber & Co. in western Kansas.

be one hour and the after work period would be lengthened one hour, making it necessary to use artificial light one hour less in each home, a considerable saving and giving a long evening for recreation.

MANY VISITING KNIGHTS OF COLUMBUS HERE MAY 28TH

The local council, Knights of Columbus, is preparing for an elaborate program here Sunday, May 28. There will be the exemplification of the first, second and third degrees and a large class will be initiated. Probably 400 visiting knights and their ladies will be here. Several hundred expect to come from Salina and other western points and a special train will be chartered.

SHALL WE HAVE ONE HOUR MORE OF DAYLIGHT

The agitation for setting the clocks ahead one hour during the summer is receiving much favorable comment in Kansas. The plan is now followed in European countries and it results in saving of expense in lighting. Now there are two hours of daylight before working hours. By setting up the clock there would
